You have unmerged paths.
  (fix conflicts and run "git commit")
  (use "git merge --abort" to abort the merge)

Unmerged paths:
  (use "git add <file>..." to mark resolution)

        both added:      sample.txt

no changes added to commit (use "git add" and/or "git commit -a")
shanmugha13@github-bootcamp:~/bootcamp2$ git mergetool

This message is displayed because 'merge.tool' is not configured.
See 'git mergetool --tool-help' or 'git help config' for more details.
'git mergetool' will now attempt to use one of the following tools:
tortoisemerge emerge vimdiff

Merging:
sample.txt

Normal merge conflict for 'sample.txt':
{local}: created file
{remote}: created file
Hit return to start merge resolution tool (vimdiff):
```
